#### About Bodet Limited

Bodet has been offering Time and Attendance & Access Control solutions for over 25 years.

Bodet's devotion to constant improvement has enabled Bodet to become the European leader in the Time Management sector.

Bampton Packaging was founded in 1926. Located in Nottingham, it designs and produces packaging solutions for companies both in the UK and abroad. Today Bampton Packaging employs 70 staff.

### An all encompassing Time and Attendance system

"Before using Bodet's Time and Attendance system the company used a paper based system to record hours worked and HR information", explains Steve Fountain, Production Manager at Bampton Packaging. They have been using Bodet's Time and Attendance system since 2010.

"The reason we chose Bodet was simple", said Steve. "Bodet's solution aligned with all our requirements. These include **the ability to control absences and provide an overview of clocking times at the touch of a button**. It's also very helpful to view booked holiday so we can plan effectively. In addition, we really like the fact that all our HR information is stored in one place."

"We find the software very easy to use and we know the information can be relied on. We are very happy with the system."

### State-of-the-art customer support

Steve has also been impressed with the support Bodet offers. "On the odd occasion we've required assistance the team at Bodet were quick to respond to our questions. **Overall we have no hesitation in recommending Bodet**", commented Steve.

**Bodet prides itself on offering an all encompassing solution for its clients. Why not join Bampton Packaging and create a tailored solution for your organisation?**
