## SUMMARY

### Overview

Industry: Call Centre  
Solution: Kelio Integral & Planning

### Benefits

- Control employees hours
- Manage staff planning
- Reduce HR administration

### About Bodet Limited

Bodet has been offering clocks & class change systems and Time and Attendance solutions for over 25 years.

Bodet's devotion to constant improvement has enabled Bodet to become the European leader in the Time Management sector.

Heulwen Thomas, in charge of coordination at DVLA's head office in Swansea, has explained how the DVLA benefits from using Bodet's Time and Attendance Solutions.

## A system which meets the DVLA's needs

The DVLA had some specific requirements for their Time and Attendance System. Bodet's tailored solution met DVLA's needs to *"export data to excel for payroll. We also use it to manage staff planning including setting up new shift patterns"* explains Heulwen.

When DVLA moved their office into a new building, Bodet made sure the installation of the time and attendance system was completed on time. *"The system was already installed when we moved in, it works well for us"*, says Heulwen.

## Manage staff planning

DVLA is using Kelio Planning to roster workers more efficiently *"The planning module enables our organisation to use the system to plan the shifts of employees. It makes it easier when we have to allocate a team to a special task"* explains Heulwen.

## Why not join organisations like DVLA and find out more about how Bodet's Time and Attendance solutions can help you?
